

COLAMCO SERVICES

PC IMAGING

Remove the downtime when setting up new machines and let COLAMCO's expert services team ensure your machines are ready the moment they arrive.

OUR SERVICES

Custom Imaging

We support the unique needs of your business and offer a variety of delivery and deployment methods.

All User Devices

We apply images to all end-user devices, including desktops/laptops, mobile devices, and servers.

Ready On Demand

COLAMCO provides onboarding and testing to ensure all images are production-ready before arrival.

SECURE. FLEXIBLE.
SCALABLE.

WHY CHOOSE COLAMCO?

COLAMCO's ability to customize PC imaging allows you to get the service needed for your needs.

Manage images on-site at our logistics center and we make revisions and updates as you need them.

COLAMCO offers to house images on a secure, dedicated, or customer-owned server and back-up media for fault tolerance.

ABOUT US

COLAMCO is a leader in the information technology industry by delivering best in class technology and solutions to the world's leading companies.
